

EDUCATION			
Degree	Plaksha university,Mohali	8.01	2024/present
12th - IB	OIS,Mumbai	31/42	2024
10th - ICSE	HFS,Mumbai	95%	2022

EXPERIENCE	
Student Intern Nippon Mutual Funds	July 2023 - August 2023
- Developed and worked on exploratory data analysis using python - Conducted a research report on the impact of robo-advisory on young investors in India.	

PROJECTS	
Knowledge Map Prof.Raghav Awasthy	May 2025 - present
- Developing a connected and intelligent course knowledge graph designed to be queried, visualized, interoperable, and reusable. - Leveraging open measures such as Schema.org and RDF to structure course data into a semantic graph that connects with external educational ontologies and Linked Data sources. - Exploring applications for the knowledge graph in recommendation systems, curriculum design, and AI-driven tutoring.	
AI-based universal compression engine	August 2025 - present
- Developing an AI-driven data compression platform focused on reducing storage and transmission costs while preserving task- level information fidelity. - Analyzing trade-offs between compression ratio, reconstruction quality, and computational efficiency, with applications in large-scale data systems and AI workloads. - Building evaluation pipelines to benchmark performance against classical compression methods and optimize for real-world deployment constraints.	

VC Capstone Project Bhavish Sood, Entrepreneurial Finance	Jan 2025 -April 2025
- Conducted a VC-style investment analysis on a deep-tech defence startup, evaluating PMF, KPIs, market size, and financial performance - Synthesized investment insights and delivered a final recommendation to a panel of venture capital professionals - Secured 2nd place in the cohort	

SKILLS	
- Programming Languages: Python, C/C++, HTML,CSS - Technologies: Machine Learning, RDF Library,exploratory data analysis,ontology mapping	

ACHIEVEMENTS/EXTRACURRICULARS	
- Startup sprint (E-cell Plaksha),2nd place,built MVP for a cross platform profile viewing experience for seminars/events. - Impact Lab (PCC X GWIST), 1st place, designed a data-driven,financiallyviablestrategyforgender-inclusive urban mobility, advising apublic-sectortask forceon large-scaletransport reform - Cascade (PCC),3rd place, Built an AI agent trained to evaluate companies based on investor-focused factors.	

POSITIONS OF RESPONSIBILITY	
Member Kartavya club	December 2024 - May 2025
- Participated in a meaningful initiative where neurodivergent children painted tote bags, fostering creativity and inclusion - Contributed to fundraising efforts by helping sell these tote bags to founders on Founders day - Collaborated with team members to achieve target results	
Member Plaksha consulting club(PCC)	August 2024– August 2025
Attended seminars and represented the club in competitions such as The Plaksha Cricket League and Ashoka Case Competition.
